Dated: 7/11/2012

PRESS RELEASE

Training & Placement office (General) organized a Workshop on “**ANDROID Mobile application Technology**” by DUCAT (a leading IT consultancy & Training Company) Noida, for the students of Master of Computer application (MCA) Dept. of computer Science, as per the schedule on 4th Novemeber,2012, In the conference hall of the administrative block., AMU.

The objective of the Workshop was to make the students aware of the new technologies in the field if information Technology. The team from DUCAT made the students aware about the Android technology through power point presentations & Practicals. They emphasized that the MCA students should keep on updating themselves to face the fast challenges of the IT field. **They also said that 25% of today’s IT field is working on ANDROID**, which will definitely give an upper edge to our students. The students participated with lot of interest & enthusiasm. The students were of the opinion that workshops like these will not only update them with new technologies but will also make them more employable in the job market which will definitely increase their job prospects. The students were of the opinion that more job specific training programs should be organized in order to make them in line with the requirements of the job Market. The workshop ended with a Question & Ans Session.
