March 18, 2020

My Dear Students and members of AMU Fraternity

I am writing this to you at a time when the world and our country is in the midst of a serious health crisis due to COVID 19 (Corona Virus) Pandemic. As you may be aware Pandemic is a term which is given for a disease which occurs over a wide geographical area or in several continents at the same time. We all have to fight together to overcome this crisis.

The Dean Students Welfare and Registrar have been issuing advisories at regular intervals regarding prevention and spread of COVID 19.

I am personally very concerned about your health and safety and I request you to cooperate with all advisories issued by various Competent Authorities. AMU is doing its best through the J.N. Medical College and our institution as on date is only one of the two Virology Laboratories in Uttar Pradesh which is doing testing for COVID 19 (Coronavirus).

As you are educated individuals of the society, you have to act as role models for other less privileged sections of the society. As young persons you can only excel academically and otherwise if you are healthy and fit.

I also request you to create awareness among your family, friends and other sections of society, wherever possible and emphasize to them that this is viral infection and Prevention is best measure which can be effective by Social Distancing, Avoiding Crowded Places etc.

Let us all work together to overcome this menace.

Tariq Mansoor
